A Creative Digital Agency

Introduction

Toms Hive & Technology Innovations Ltd is a creative digital agency based in Lagos, Nigeria, helping businesses build modern websites, design intuitive products, launch impactful marketing campaigns, and create strong brand identities. We don't just design — we solve business problems through strategy, creativity, and technology. Founded on May 19, 2023, Toms Hive has worked with brands across Nigeria, South Africa, and the UK, delivering digital solutions that look professional, communicate clearly, and scale with growth.

We Think Business, Strategy + Creativity

Every brand has a story, a goal, and a problem to solve. At our company, we go beyond aesthetics to build digital solutions that help businesses communicate clearly, earn trust, and grow sustainably in a competitive market. Technology alone isn't enough; creativity without strategy isn't either.

Strategy + Creativity

About Us

We are Toms Hive. A creative digital agency based in Lagos, Nigeria helping businesses show up & look professional online, through technology, design and marketing systems. We serve clients globally

Our Mission

To elevate small brands into global powerhouses by crafting intelligent, impactful, and scalable digital experiences that inspire growth, and ignite potential beyond limits.

The Vision

To become one of the world's most trusted and transformative digital agencies, driving innovation across borders and empowering businesses to lead, influence, and make a difference in the digital era.

Our Values

- Strategy
- Creativity
- Growth
- Excellence

What We Do

01.

Web Design & Development

High-performing, mobile-responsive websites built for credibility, speed, and conversion.

02.

Product Design & UI/UX

User-focused interfaces and experiences that are clean, intuitive, and functional.

03.

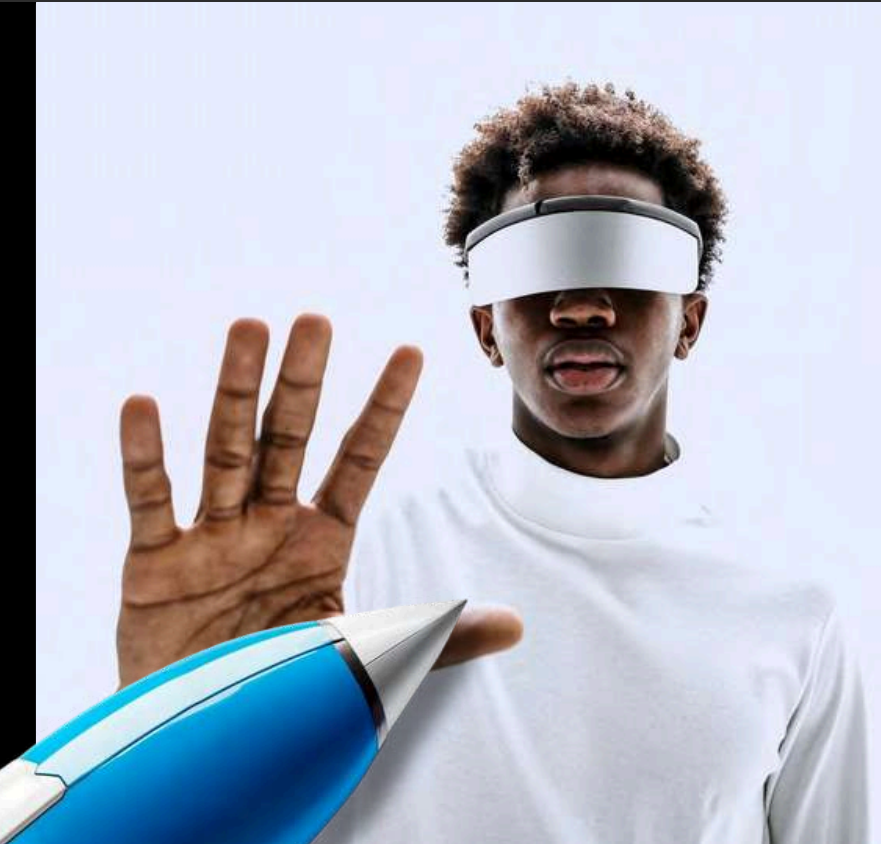

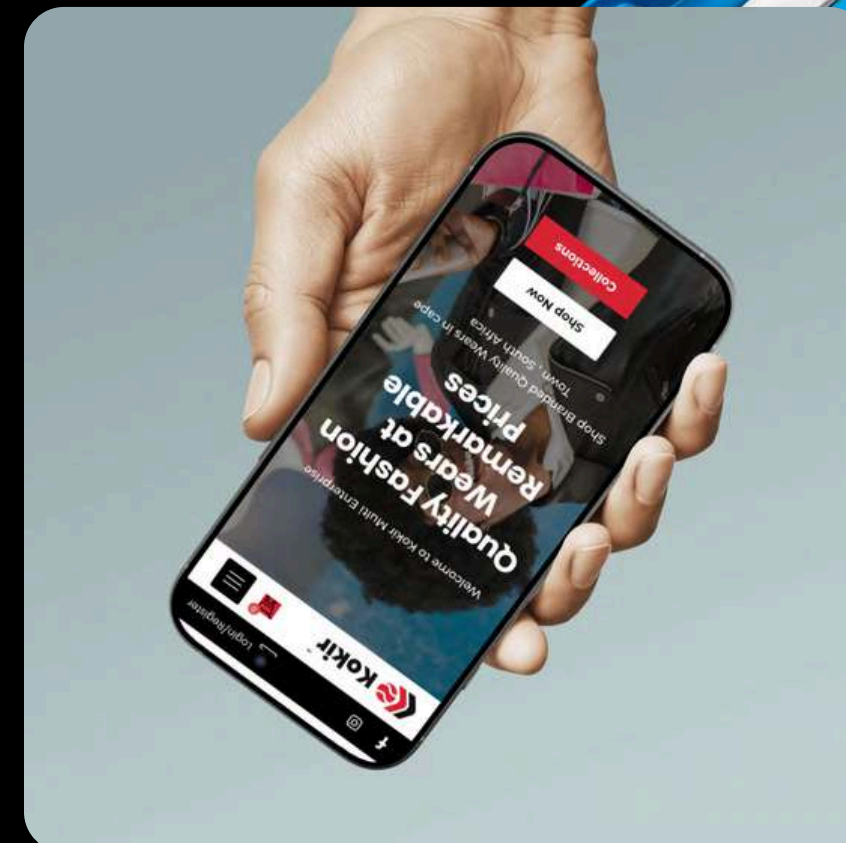

Branding & Visual Identity

Logos, brand systems, and visual assets that help your business stand out and stay consistent.

04.

Digital Marketing

Social media management, content strategy, and campaigns that drive visibility and engagement.

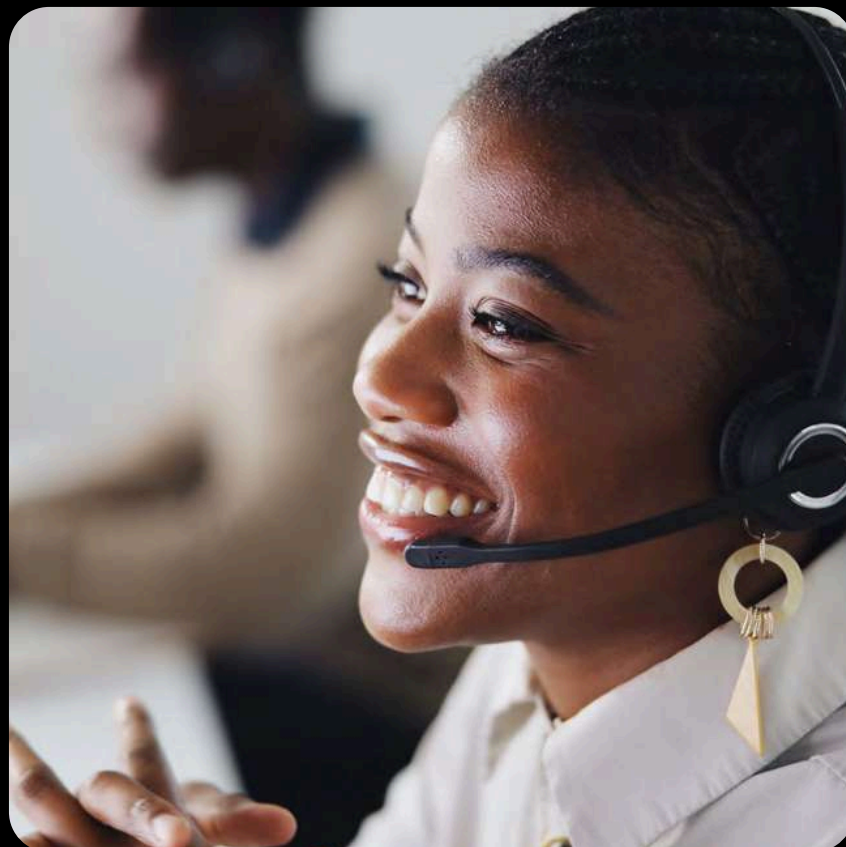

What We Do

05. Traditional & Outdoor Marketing
OOH advertising, press releases, and radio promotions to extend your reach beyond digital.

06. Website Maintenance & Support
Reliable maintenance packages to keep your website secure, updated, and performing optimally.

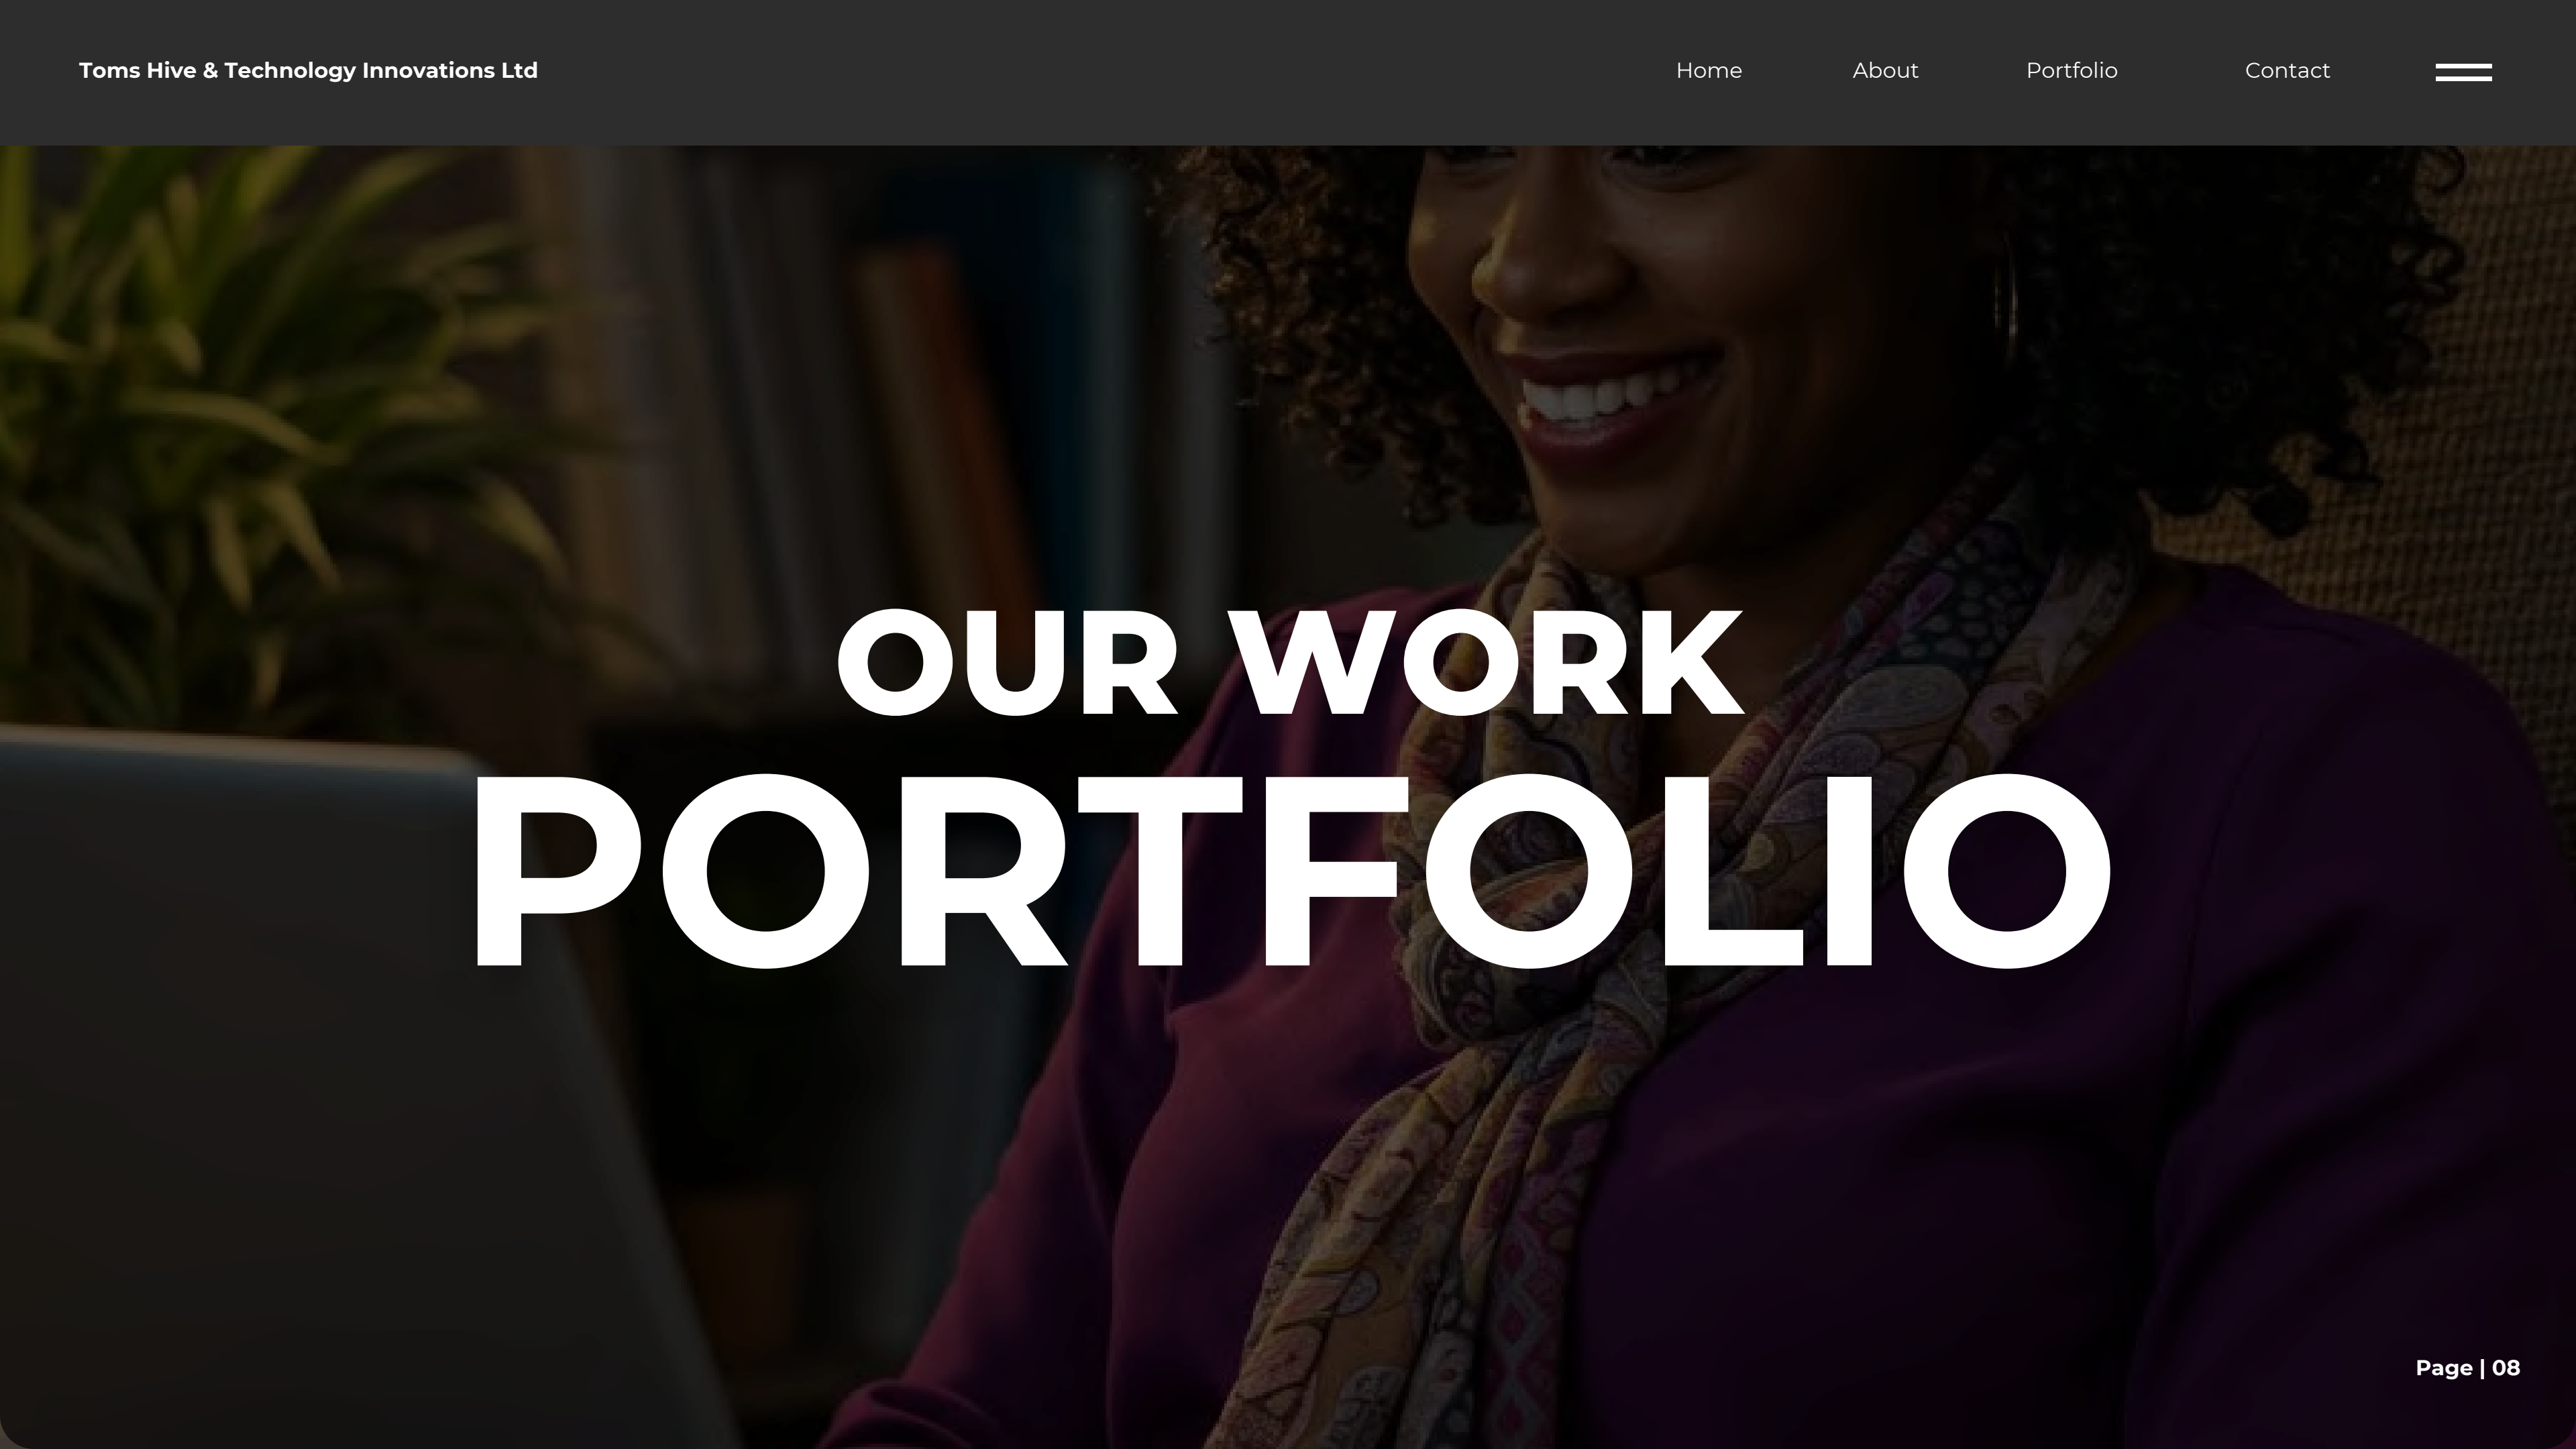

How We Work

01. Project Discovery
We understand your business, audience, and goals.

02. Research & Strategy
We create a clear plan tailored to your needs.

03. Design & Development
We execute with creativity, precision, and attention to detail.

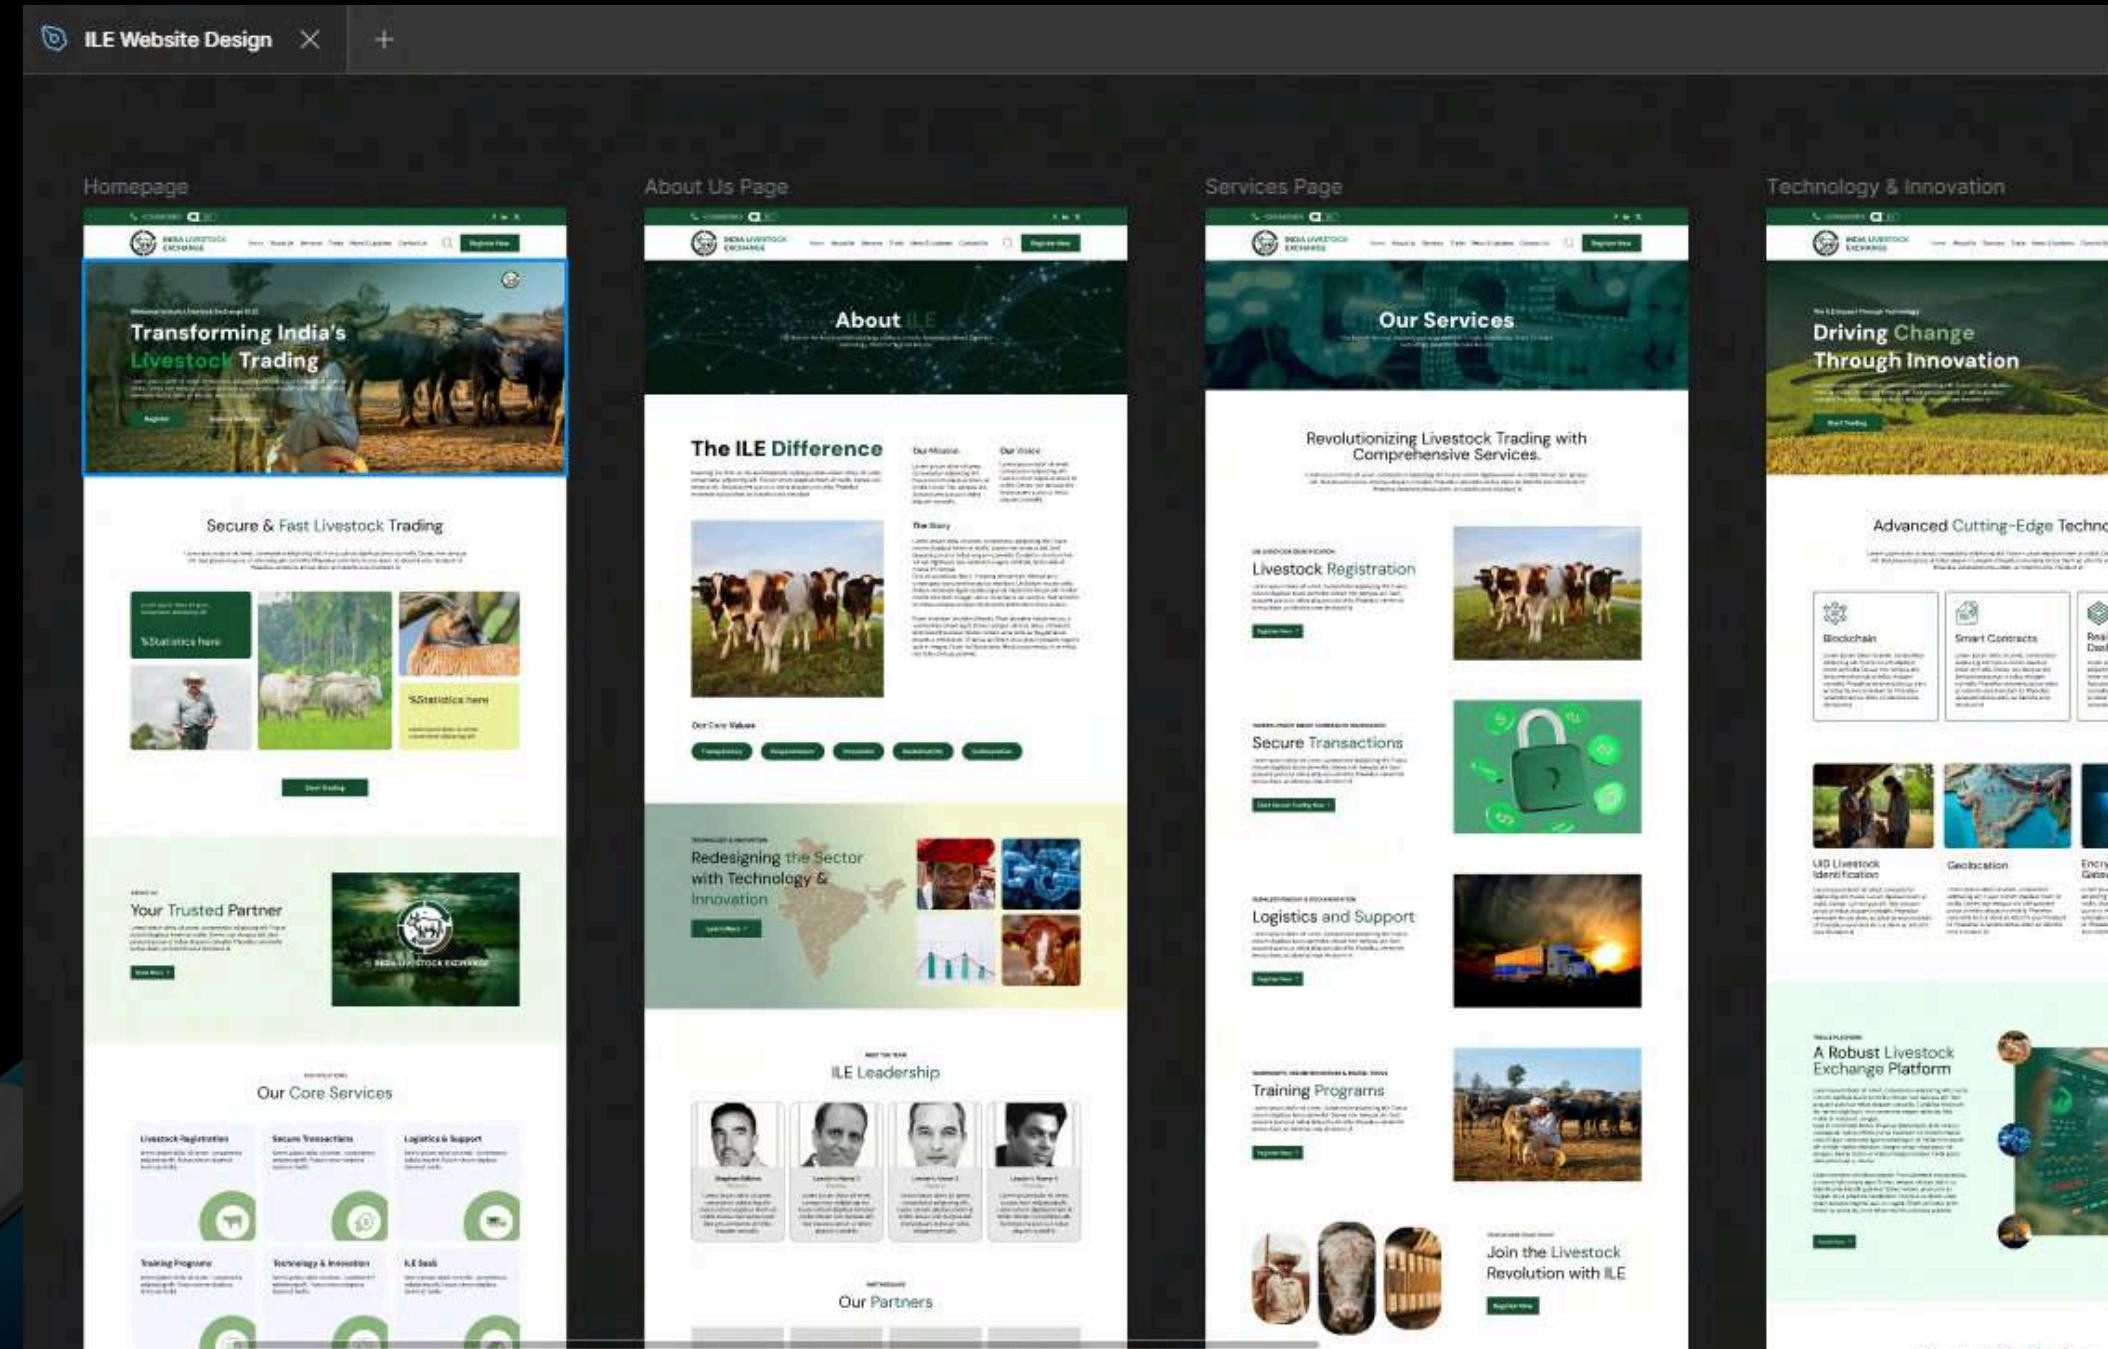

04. Testing & Delivery
We deliver, monitor, and support for long-term success.

The ILE Difference

Pioneering the first-of-its-kind livestock exchange platform India Livestock Exchange (ILE) is transforming livestock trading with unparalleled technology and innovation. By combining transparency, security, and sustainability, we empower farmers and stakeholders to thrive in a modern digital ecosystem.

Our Mission

To transform India's livestock trading landscape by leveraging innovative technology to deliver a secure, transparent, and fully integrated ecosystem.

Our Vision

To revolutionize the livestock trading markets through technology, strategic partnerships, and an unwavering focus on transparency, security, and sustainability.

The Story

India Livestock Exchange (ILE) was born from the vision of empowering India's 70 million small and marginal farmers who rely on livestock for their livelihoods. Faced with the challenges of opaque markets, inconsistent pricing, and limited access to technology, ILE set out to revolutionize the livestock trading ecosystem. Inspired by the potential of digital transformation, ILE integrates cutting-edge innovations like smart contracts, geolocation, and real-time livestock grading into a cohesive platform. Backed by sustainability, transparency, and farmer empowerment, ILE is not just a platform but a movement to modernize India's \$23 billion livestock market while ensuring prosperity for rural communities. This initiative reflects the aspirations of the White Revolution 2.0, aiming to uplift farmers and build resilience across India's agricultural economy.

Driving Change Through Innovation

Harness the power of advanced technology with innovations like UID-based livestock identification, geolocation, and data-driven analytics. ILE empowers farmers and stakeholders to make informed decisions, reduce risks, and unlock new opportunities in a modern, tech-enabled ecosystem.

Start Trading

Advanced Cutting-Edge Technology

India Livestock Exchange integrates groundbreaking technologies to modernize livestock trading. From blockchain to geolocation, every innovation is designed to enhance transparency, efficiency, and security for farmers and traders alike.

Technology

Harness the power of technology for secure, tamper-proof transactions. Every trade is immutably recorded, building trust and transparency across the livestock trading ecosystem. This marketplace where all parties can trade with confidence.

Smart Contracts

Streamline agreements with automated digital contracts. These self-executing contracts eliminate disputes and ensure stakeholders, farmers and traders benefit from greater efficiency and clarity at every step of the process.

Real-Time Dashboards

Get actionable insights at your fingertips with real-time dashboards. Monitor livestock availability, pricing trends, and transaction updates with simplicity. These dashboards empower users to make smarter, data-driven decisions.

UID Livestock Identification

Ensure traceability with unique identification (UID) tags for every livestock. This cutting-edge system enhances tracking, grading, and management throughout the supply chain. UID tagging improves accuracy and creates a reliable database of livestock information.

Geolocation

Optimize logistics and trading with geolocation technology. Track livestock movement, manage routes, and reduce delivery times with precise location data. This not only increases efficiency but also ensures livestock safety during transport.

Encrypted Payment Gateway

Experience secure and encrypted payment solutions. ILE ensures your transactions are safeguarded, fostering trust and financial transparency within the platform. Our payment gateway uses advanced encryption standards to provide peace of mind for all users.

THE ILE PLATFORM

A Robust Livestock Exchange Platform

A Game-Changer for India's Livestock Market
India Livestock Exchange (ILE) is a pioneering platform created to empower small and marginal farmers by bridging the gaps in livestock trading. With advanced technology and innovative tools, ILE simplifies the complexities of traditional trading while ensuring fair pricing, secure transactions, and efficient logistics. Integrating smart contracts, real-time data analytics, and tamper-proof UID-based identification, ILE addresses critical challenges in India's \$23 billion livestock market. The platform ensures transparency and reduces inefficiencies, creating a seamless trading experience for farmers and traders alike. For farmers, ILE represents an opportunity to access better markets, increase incomes, and reduce risks. For traders, it offers a secure and efficient way to source livestock, ensuring quality and traceability. Through efficient logistics and secure transactions, ILE is redefining how livestock is traded—empowering rural communities while driving growth in India's agricultural sector.

Pilot Programs & Expansion Plans

India Livestock Exchange (ILE) is spearheading transformative change through pilot programs, starting in Gujarat. These programs are designed to refine our solutions while delivering immediate benefits to farmers and stakeholders. We aim to expand into key regions such as Uttar Pradesh, Rajasthan, and Maharashtra, committed to creating a transparent, efficient, and sustainable livestock ecosystem. By fostering better market access and fair pricing, we're redefining India's agricultural economy one step at a time.

Get Started

Pilot Program in Gujarat

The Gujarat pilot program is our first step in transforming livestock trading. We are testing ILE's innovative solutions to empower farmers, streamline trading, and build trust in the ecosystem.

Our Why?

India's livestock market needs better pricing, access, and transparency. ILE aims to save these challenges by empowering farmers and driving change through technology.

Gujarat Pilot Programs & Expansion Plans

Transforming India's livestock trading starts with our pilot program in Gujarat, paving the way for expansion into other key regions like Uttar Pradesh, Rajasthan, and Maharashtra.

Projected Impact

India Livestock Exchange is set to empower over 70 million farmers, increase livestock transaction values by 15-20%, and reduce transaction costs by up to 25%. With our innovative solutions, we aim to transform the \$23 billion livestock market, driving sustainable growth and economic resilience across India.
